

## Spring Home Learning Activities 2020

Our topic this term is out in the garden. In science we are looking at plants and their parts, maths we have been focusing on money and literacy we are using the book Oliver's vegetables.

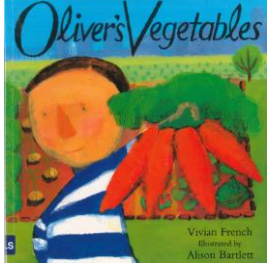

Choose some of the activities from the grid below to do at home. The activities are designed to hopefully be fun at the same time as learning.

Cross them off as you go if you don't want to get your child to write lots get them to film there answers and put it on Tapestry to share.

Please put at least one on Tapestry so I can see them at home.

Enjoy ☺
